## Region-Wide Prayer Meetings on Zoom

### Overview

We all know the saying, “prayer isn’t the only thing we can do, it’s the best thing that we can do,” and it couldn’t be more true. Getting your region or community to come together to pray, worship, and seek spiritual connection via Zoom is a cost-effective way to call upon saints for mutual encouragement and to move the hand of The Lord. It is so important for the body to unite in prayer, share our faith, and find support and inspiration from one another, especially during times where we can’t meet in person.

### Preparing for the Moment

- While it’s perfectly acceptable to “let the Spirit lead”, it may be wise to make a list of the most important things to pray for.
- Select a date and time, schedule the meeting and preferred settings via Zoom (remember to take time zones into account), and send out invites.
- Make sure to check your technical setup prior to the meeting.
- Promote the meeting both internally and on social media

### Staff Needed

1 to 3 staff should be fine for this. Make sure at least one person is a gifted moderator (or is at least passionate about prayer). Someone should also be a capable IT person, or familiar with the Zoom platform.

### Supplies Needed

A desktop computer, laptop, or phone connected to WiFi or a cellular network

### Budget

\$0, provided center has computer, laptop, or phone connected to WiFi or a cellular network.

### Potential Partners

Fellow churches, other campuses, friends and family of the ministry could all join.

## **Execution**

On the day of the Zoom meeting, connect with staff who will be participating, making sure to go over etiquette and a general outline of the event. Check to make sure your PC, laptop, or phone can connect to Zoom and that the audio/visual sounds good. If possible, send a final reminder to those expected to be on the call. At the time of the event, connect to Zoom and check that participants can hear and see you, and make sure to let everyone know how to work the mute/unmute features (and when to use them). Make sure to greet everyone on the call by name if applicable. Once the call is completed, if you choose to record, send it out to participants as well as those who are unable to attend.
